COVID-19 RESOURCES

University of Utah Health is pleased to share resources and expertise in the battle with COVID-19. Visit our Partner Portal to find:

- Treatment guidelines, workflows, and testing criteria
- Physician education materials, including an exhaustive Grand Rounds presentation from the Department of Internal Medicine
- Billing updates, visitor guidelines, and patient education

> Find all these resources at affiliate.uofuhealth.org

UNRAVELING THE COMPLEXITY OF CHRONIC PAIN AND FATIGUE

This three-part virtual workshop will provide a multidisciplinary approach to patients who present with chronic fatigue and widespread pain. Providers will broaden their knowledge regarding the underpinnings of symptoms, and gain tools allowing for earlier diagnosis, more effective clinical management, and improved patient outcomes.

MAY 13 - 15,
NOON - 1 PM (MDT) DAILY

AN UPDATE ON SCHEDULED CME EVENTS

As we continue this grand experiment we call social distancing, some educational endeavors will continue through the coming months.

University of Utah Health long ago embraced the use of video conferencing technology, including pioneering efforts with platforms such as Zoom Video Meetings.

Offerings such as Project ECHO should continue without interruption. Watch for a COVID-19 ECHO to be announced.

This newsletter lists several events that will be held using these distance learning platforms.

Many other events, including most of those that were announced in March, have been postponed. New times and dates for those events will be announced here in the coming months.
MANAGING COMPLEX DIABETES IN THE PRIMARY CARE SETTING

Dr. Deepika Reddy, endocrinologist at University of Utah Health, will teach a group of primary care providers and hospitalists about ongoing developments in the treatment of diabetes.

This event is a live broadcast of the Grand Rounds at Community Hospital in Grand Junction, Colorado. Outside providers are invited to listen in and benefit from this teaching.

MAY 1, 2020
7 AM (MDT)

UPCOMING TeleICU EVENTS

The TeleICU program offers 24/7 physician to physician consults with ICU intensivists and nurse to nurse telephone consults. In addition, we offer weekly live education on ICU topics. We are currently focusing on education related to caring for the COVID-19 patient population.

These offerings are for those with a current TeleICU contract. For more on these events, or on the TeleICU program, see the flyer.

MULTI-PART EDUCATION SERIES:
Growing in uncertain times

Join leaders from the University of Utah School of Medicine and the David Eccles School of Business for this series on succeeding through adversity. You'll gain strategies and support in navigating uncertainty and facing the upcoming challenges we'll navigate personally, and in our businesses and practices.

Each class consists of an on-demand video lecture, followed by a live webinar, taught by experienced leaders in our community.

Covid-19 ECHO Forthcoming

University of Utah Project ECHO plans to begin a weekly ECHO session with information related to Covid-19. This is meant to serve as a resource for our rural providers, as well as our affiliate partners. It will connect University of Utah information and resources for best practices to community providers. More information about this upcoming limited ECHO series will be released in the coming days. We will be reaching out to solicit requests for desired topics.

Thank you,
University of Utah Project ECHO team

Session Highlight

Pediatrics teleECHO | Craniosynostosis | 04/08/2020

When is the best time to treat Craniosynostosis, and what treatment options exist? Join Dr. Faizi Siddiqi (Pediatric Plastic Surgeon) and Dr. John Kestle (Pediatric Neurosurgeon) on Wednesday, April 8 from noon – 1 pm MT for a multidisciplinary presentation on how to identify Craniosynostosis and the importance of early detection and treatment.

If you’d like to submit questions in advance for Dr. Siddiqi and Dr. Kestle, or you’d like the calendar invite for this event, please email Jared Price at jared.price@hsc.utah.edu. We look forward to seeing you online!

Upcoming ECHO sessions

To learn more or join us for one of the following sessions, please contact us at project.echo@hsc.utah.edu.

- “Hematology: Anemia: IV iron who, when, how?” (4/10/2020)
- “Hematology: Thrombocytopenia” (4/24/2020)

---

## Data Usage Notification

In order to support the growth of the ECHO movement, Project ECHO® collects participation data for each ECHO program. This data allows Project ECHO to measure, analyze, and report on the movement’s reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision-making related to new initiatives. Please contact us at [project.echo@hsc.utah.edu](mailto:project.echo@hsc.utah.edu) with any questions or concerns.
